

EXHIBIT "B" to CONTRACT NOas 59-4179-c

1. Departments and Agencies of the U. S. Government, Foreign Governments, and Private Parties will be provided logistic support and services by the Contractor when authorized by the Contract Administrator.

(a) Subsequent to initial authorization therefor, the Contractor will provide such support and services as are set forth in sub-paragraphs (1) thru (22) below without further direction or authority from the Contract Administrator except as provided in sub-paragraph (21):

(1) The maintenance, operation, and protection of all land, buildings, facilities and equipment (less certain operational and project equipment) required for the providing of logistic support and services with the exception of the U. S. Coast Guard LORAN installation on Ebeye Island.

(2) The maintenance and operation of facilities and organization to provide the requisition, receipt, custody, storage, issue, inventory control, packing, unpacking, transporting, reporting, and accounting for provisions, supplies, equipment, spare parts, fuel and other items of property, required to provide such logistic support and services. This requirement includes into aircraft refueling and logistic support of enroute aircraft and other functions incident to aircraft operations.

(3) The maintenance and servicing of all transportation equipment assigned to or in the custody of the above named agencies. The maintenance and operation required by sound industrial practice to be operated from a central transportation pool (non-government owned vehicles are specifically exempt from this provision).
