

CHART NO. 7
NUMBER OF COMPUTERS BY CATEGORY OF USE
FY 1962

There are 1006 computers installed as of June 30, 1962. Of these, 786 are used for one category of work, broken down as follows:

- 274 for scientific work only
- 265 for administrative work only (i.e., payroll, accounting, personnel, etc.)
- 224 for program operations work only (i.e., major work programs of the agency such as Treasury's disbursing operations, Veterans Administration's benefit payments, military inventory control programs, etc.)
- 23 for classified and other uses.

Two hundred twenty computers are used for two or more categories of work.

Number of Computers by Category of Use Fiscal Year 1962

* Numbers on chart will not add to this total because of multi-category use of 220 computers
