Subtotal.....			81,318.9	70,730.6
Foreign investment guarantee fund ³²			(32)	267.5
Advance acquisition of property.....				
Total, 1948-64 cumulative.....			81,318.9	70,998.1

¹ Obligations reflected in this report are on a net basis and represent commitments made against total appropriations for a given year, plus authorized unobligated balances available from previous year. For the Development Loan Fund, this column includes loan approvals plus obligations for administrative and other expenses.

² Reservations represent funds reserved pursuant to provisions of sec. 110 of the Mutual Security Appropriation Act, 1955, and sec. 108 of the Mutual Security Appropriation Act, 1956. Under the "reservation" procedure equipment on order or to be ordered for military assistance is financed from procurement funds of the regular military services. At the time the orders are placed, funds are reserved in the mutual security program military assistance account for future reimbursement to the procurement accounts of the military services.

³ Includes \$1 billion public debt authorization for loan purposes; the "Appropriations adjusted" column, however, includes \$972.3 million. The difference of \$27.7 million was used in the investment guarantee program.

⁴ Includes \$500 million contract authorization in executive branch appropriation request which was approved. A similar amount is shown in col. 5 as this fund was immediately available for obligation. Subsequent appropriations made to liquidate contract authority are not shown as such reflection would duplicate and therefore distort the availability account.

⁵ Includes \$62.5 million for loan to Spain, which is not included in cols. 1, 2, and 3 for the reason that it was authorized and made available in the appropriation act.

⁶ Excludes \$100 million for assistance to Spain subsequently authorized and appropriated by Congress.

⁷ Includes authorization of \$98.4 million for local currency.

⁸ Includes \$200 million transfer from funds available to the Department of Defense as provided in Public Law 207, 83d Cong., dated Aug. 7, 1953. This amount is not reflected in the mutual security program "Executive branch authorization request" column nor in the "authorization by Congress" column.

⁹ Military assistance is reduced by \$261,320,111 unliquidated obligations transferred to "Southeast Asia and the western Pacific, Executive," from "Military and other assistance, Asia and Pacific, Executive." Economic assistance is increased by the transfer of \$261,320,111.

¹⁰ For the purpose of this presentation direct forces support is confined to the common-use appropriation as it is the only appropriation in 1955 which, in its entirety, can be completely related to direct forces support. Other appropriations in fiscal year 1955, and in prior years, included funds which in part provided for the procurement and payment of commodities and services for DFS but which cannot be precisely associated with direct forces support activities.

¹¹ Includes the following fiscal year 1956 activity for the fiscal year 1955 common-use account: obligations, —\$0.2 million (col. 6); total unobligated balance, \$0.2 million (col. 7); unobligated balance returned to Treasury, —\$0.2 million (col. 9); expenditures, \$39.2 million (col. 10); unexpended balance, \$11.2 million (col. 11).

¹² Fiscal years 1946 and 1957 exclude \$122 million and \$75 million, respectively, for infrastructure which was previously authorized under sec. 104 of the Mutual Security Act of 1954.

¹³ Fiscal years 1956 and 1957 include \$122 million and \$75 million, respectively, for infrastructure.

¹⁴ Includes direct forces support (the unexpended balance of "Direct forces support, Executive, 1956," was transferred to "Military assistance, Executive, 1957"). "Common-use, Executive, 1955" remains a separate account under the functional heading of "Military Assistance."

¹⁵ The executive branch requested an appropriation for the Development Loan Fund of \$500 million for fiscal year 1958, and borrowing authority of \$750 million for fiscal year 1959 and \$750 million for fiscal year 1960.

¹⁶ The Mutual Security Act of 1957 authorized \$625 million for fiscal year 1959 for the Development Loan Fund in addition to \$500 million for fiscal year 1958.
