"(b) Statements of the general course and method by which its functions are channeled and determined (see sec. 3(a)(2) of statute) * * *."

In addition to 10 CFR chapter I, part 1, the following parts of 10 CFR chapter I include some statements of the general course and method by which certain of the Commission's functions are channeled and determined:

- Part 2: Rules of Practice.
- Part 3: Rules of Procedure in Contract Appeals.
- Part 4: Nondiscrimination in Federally Assisted Commission Programs.
- Part 5: Procurement Policy.
- Part 6: Security Policies and Practices Relating to Labor-Management Relations.
- Part 7: Advisory Boards.
- Part 9: Public Records.
- Part 10: Criteria and Procedures for Determining Eligibility for Access to Restricted Data or Defense Information.
- Part 25: Permits for Access to Restricted Data.
- Part 37: Radioisotope Research Support Program.
- Part 60: Domestic Uranium Program.
- Part 80: General Rules of Procedure on Applications for the Determination of Reasonable Royalty Fee, Just Compensation or the Grant of an Award for Patents, Inventions, or Discoveries.

Revisions are published in the Federal Register as adopted. Although notice of proposed rulemaking is not required by section 4 of the Administrative Procedure Act (5 U.S.C. 1003) for rules of agency organization, procedure, or practice, the Commission generally does publish notice of proposed rulemaking in such cases as well as in others. Miscellaneous notices dealing with various Commission programs are published in the Federal Register from time to time. In a few instances, announcements of policies dealing with nonregulatory functions have been published as press releases.

"(c) Substantive rules adopted as authorized by law (see sec. 3(a)(3) of statute) * * *."

Substantive rules adopted as authorized by law are published in the parts already mentioned and in the following parts of 10 CFR chapter I:

- Part 20: Standards for Protection Against Radiation.
- Part 30: Licensing of Byproduct Material.
- Part 31: Radiation Safety Requirements for Radiographic Operations.
- Part 40: Licensing of Source Material.
- Part 50: Licensing of Production and Utilization Facilities.
- Part 55: Operators' Licenses.
- Part 70: Special Nuclear Material.
- Part 71: Regulations to Protect Against Accidental Conditions of Criticality in the Shipment of Special Nuclear Material.
- Part 81: Standard Specifications for Granting of Patent Licenses.
- Part 83: Waiver of Patent Rights.
- Part 95: Safeguarding of Restricted Data.
- Part 100: Reactor Site Criteria.
- Part 110: Unclassified Activities in Foreign Atomic Energy Programs.
- Part 115: Procedures for Review of Certain Nuclear Reactors Exempted from Licensing Requirements.
- Part 140: Financial Protection Requirements and Indemnity Agreements.
- Part 150: Regulatory Authority in Agreement States.
- Part 160: Trespassing on Commission Property.

"Atomic Energy Commission procurement regulations" are published in the Federal Register and are codified in 41 CFR chapter 9. These rules are revised from time to time, after notice of proposed rulemaking and notice of rulemaking published in the Federal Register.

"(d) Statements of general policy or interpretations formulated and adopted by the agency for the guidance of the public (see sec. 3(a)(3) of statute) * * *."

Statements of general policy or interpretations formulated, and adopted by the agency for the guidance of the public are published in the Federal Register as notices, in the text of the respective parts of the Commission's regulations, or in the statements of considerations which are published with the parts of specific regulations.
