

Article 15. It shall be prohibited to aircraft without special authorization to transport explosives, weapons and munitions of war, carrier pigeons, and packages or mail subject to the postal monopoly.

It shall also be prohibited to transport and use photographic equipment and to install aboard any equipment for wireless telephone or telegraph. Details of the application of this law shall be specified by regulation.

Article 16. Any aircraft landing on an airdrome or on private land shall be subject to the control and supervision of the pertinent State authorities.

Article 17. Any aircraft in flight, upon landing at any place on the territory, must be put at the disposal of the postal service, the police and customs authorities and must strictly comply with the instructions of these authorities.

Article 18. Aircraft flying exclusively over airdomes or over areas designated by the Air Ministry as training and instruction areas shall not be subject to the provisions of the regulations concerning air flight provided their flight does not represent a public exhibition.

However, a flight with passengers shall be authorized only to airmen with a pilot's license and a permit.

Article 19. Airworthiness certificates, permits and licenses issued or considered valid in the State whose nationality the aircraft has, shall be recognized as valid for air flight above Greek territory when reciprocity exists under an international convention or a special agreement with the foreign State.

Licenses issued to Greek citizens by foreign States shall not be valid for flights above Greek territory with Greek aircraft without a special authorization from the Greek Government.

Article 20. Any aircraft and its flight crew must have certificates, permits, and licenses in accordance with the provisions of this law and the regulations.

CHAPTER V. REGISTRATION OF AIRCRAFT AND ENGINES

Article 21. No Greek aircraft belonging to the category specified in paragraph 5(b) of Article 1 of this law shall have the right to fly over Greek territory unless it is provided with a certificate showing its registration in the aircraft register.

Aircraft belonging to the State, specified in the same article, shall be exempt from the requirement of registration in the register.

Article 22. Aircraft shall be registered in the register only when they belong:

- a) to Greek citizens,
- b) to organizations set up in Greece and whose members, in the case of a society, or stockholders, in the case of a corporation (societe en Commandite), and director or administrator and two thirds of the board members, in the case of a stock corporation, are Greek citizens.

The regulations shall establish the procedure of registration of aircraft in the register, and of cancellation thereof or revocation of their flight certification.

The provisions of this article shall also apply to engines which may or may not be installed on an aircraft and for which a special register
