Within the State Department of Education the Division of Instruction will be responsible for the administration of the State Plan.

II. ALLOCATIONS

A. Fiscal Year 1966: \$9,308,483

B. Percentages. One hundred per cent may be expended for school library resources, not less than 75% for printed materials, and not more than 25% for audio-visual materials. The funds for acquisition will be allocated in two phases: in Phase I, approximately 77% will be allocated by a formula based on assessed valuation, average daily attendance in public and private schools, and the average amount of money per child available for acquisition. Phase II will be based on the approval of projects submitted by LEAs for establishing pilot or supplemental programs. From data to be gathered in the current FY, the formula for relative need will be revised. Eligible private schools will share in the program through inclusion in projects submitted by LEAs.

C. Processing. Processing, cataloging and delivery costs may not exceed \$1.50 per item. LEAs handling the acquisition of materials for private schools may claim these expenses; private schools may not be reimbursed for this work.
