

366 BOOKS FOR SCHOOLS AND TREATMENT OF MINORITIES

RÉSUMÉ, OHIO PLAN, TITLE II (ELEMENTARY AND SECONDARY EDUCATION ACT) 1966

I. ADMINISTRATION

The Ohio State Plan will be administered by the State Department of Education, Office of Federal Assistance Programs, with the Coordinator of Title II serving as administrative head of the program. Educational specialists as necessary will assist in the administration.

II. ALLOCATIONS

A. Fiscal Year 1966: \$5,406,689.

B. *Percentages*: 10% will be reserved for special purpose grants. Of the remaining 90% (made up partly of basic direct grants and partly of grants on a sliding scale of economic need) at least half will be used to develop elementary school libraries. Projects submitted shall provide for such expenditure in the amount of 50-100% of the school library resources total. Not more than 25% shall be spent for other instructional materials, and not more than 25% for supplementary textbooks.

C. *Processing*: The amount allocated for processing and cataloging of library resources shall not exceed 75¢ per book.

III. DEADLINES

Funds must be encumbered by the end of the FY (June 30, 1966); liquidation (books received) must be accomplished by the end of the following FY (June 30, 1967).

IV. PROGRAM

A. *Standards*. Minimum standards have been developed and will be reviewed and revised through the use of state committees of representatives of all areas of the teaching profession.

B. *Book Selection*. Library books purchased will in general be those included in the sources in "Selecting Materials for Children and Young Adults" (AASL).

C. *Distribution*. LEA's and state agencies offering approved programs in elementary and secondary education are authorized to purchase materials. Materials will be made available to private schools in one of two ways: either a project application might contain a separate project for private schools and materials would be lent to them; or by wide periodic circulation of materials rotated in packages from school building to school building, both public and private; or materials could be made available from a central depository to all schools, on the basis of loan.

RÉSUMÉ, OKLAHOMA PLAN, TITLE II (ELEMENTARY AND SECONDARY EDUCATION ACT) 1966

I. ADMINISTRATION

The Oklahoma State Plan for *public* schools will be administered by the State Board of Education. The authorized officer is the State Superintendent of Public Instruction, State Department of Education, and the plan will be administered by the Director of the Division of Library Resources and Instructional Materials. The State Board of Education will appoint an advisory committee to assist in the implementation of this plan. The State Attorney General has ruled that the State Department of Education is not authorized by law to administer services to private school children and teachers.

II. ALLOCATIONS

A. Fiscal Year 1966: \$1,266,877.

B. *Percentages*. It is anticipated that 60% will be spent for school library resources, 20% for textbooks, and 20% for other instructional materials. As part of the LEA application a rating scale assessing the quality, quantity, adequacy and recentness of school library resources, textbooks and other instructional materials in relation to an effort index will be used to determine relative needs of the LEA for each of the three categories of materials.
