

¹ Combined figures for water supply capital outlays by Corps of Engineers, Bureau of Reclamation, and Soil Conservation Service.

² Not available.

³ Annual figures derived from 10-year estimated capital requirements.

⁴ \$2,420,000,000 in constant prices, adjusted to current prices at assumed price increase at rate of 2 percent per year.

⁵ Annual rate of increase interpolated during 1971-73 at 3.8 percent per year.

⁶ Capital requirements, rather than capital outlays, per chapter table G.

⁷ Shown separately, although included in "Highways, roads and streets"; however, excluded from subtotal for "Transportation."

⁸ Annual average for years 1946-65.

⁹ \$2,282,000,000 reported in survey; expanded to \$4,000,000,000 on the basis of other materials in the chapter.

¹⁰ All figures estimated at 120 percent of figures for publicly owned facilities.

¹¹ Average during 1960-62.

¹² Average of estimates for fiscal years 1965 and 1966.

¹³ Average 1960-66.

¹⁴ 149,000 classrooms at \$40,000 per classroom.

¹⁵ Shown separately, although included in "Public elementary and secondary schools and academic facilities for higher education"; however, excluded from subtotal for "Education."

¹⁶ For 1963-64.

¹⁷ 15 stations at \$540,000 each.

¹⁸ Includes general and mental hospitals, clinics, nursing homes, related facilities.

¹⁹ Combination of community facilities and university affiliated facilities for the mentally retarded.

²⁰ Some of these capital requirements are probably included within the figures shown for "Academic facilities for higher education and hospitals"; but degree of overlap is not ascertainable.

²¹ Broken down as follows (in millions of dollars): (a) medical schools, \$4,259; (b) dental schools, \$590; (c) schools of nursing, \$1,641; (d) optometry schools, \$58; (e) osteopathic schools, \$191; (f) pharmacy schools, \$307; (g) podiatry schools, \$48; and (h) public health schools, \$112. To some extent, these capital requirements overlap with the capital requirements for higher education academic facilities, but the proportion is unknown.

²² For fiscal year 1964-65.

²³ Average of high-level estimate of \$5,300,000,000 and low-level estimate of \$4,200,000,000.

²⁴ Based on discussion with informed sources.

²⁵ Data on detention homes and institutions for delinquent children in the chapter. Data on other child welfare institutions obtained from Children's Bureau, as follows: Maternity homes, \$17,000,000, homes for neglected and disturbed children, \$264,000,000.

²⁶ For 1966.

²⁷ For 1964. May include in part "police stations."
