¹ Preliminary estimates.

² Includes transfers to schools for supervision and training, aside from direct allowances for trainees, under the Manpower Development and Training Act, \$147 million, in 1965-66; work-study, \$64 million; and adult basic education programs, \$20 million, under the Economic Opportunity Act; and that portion of expenditures, excluding loans, under the Cuban refugee program that is used for education. Also included (in elementary and secondary education) are Economic Opportunity Act projects Headstart,

\$147 million in 1965-66, and Upward Bound, \$20 million.

³ Includes expenditures by privately controlled schools, and private expenditures in publicly controlled schools for current educational purposes, in the form of students' tuition and fees and private gifts.
