

TABLE A-1.- INVENTORY OF COMPUTERS, MARSHALL SPACE FLIGHT CENTER

[Category A equipment]

| Center location   | Computer type | Ownership <sup>a</sup> | Production, hr/month | Test, hr/month | Date installed | Planned release | Application                    |
|-------------------|---------------|------------------------|----------------------|----------------|----------------|-----------------|--------------------------------|
| MSFC - Bldg. 4200 | CDC 3200      | L                      | 42                   | 87             | 9/65           | 12/67           | Scientific data processing     |
|                   | IBM 1620      | L                      | 125                  | 12             | 10/62          | 10/66           | Meteorological data processing |
|                   | SDS 930       | P                      | 41                   | 49             | 9/65           | --              | Scientific data processing     |
|                   | SDS 930       | P                      | 45                   | 70             | 9/65           | --              | Scientific data processing     |
| MSFC - Bldg. 4202 | SDS 930       | L                      | 45                   | 75             | 9/65           | 2/68            | Scientific data processing     |
| MSFC - Bldg. 4351 | UNIVAC 422    | P                      | 60                   | --             | 9/65           | --              | Training                       |
| MSFC - Bldg. 4481 | IBM 1620      | L                      | 250                  | --             | 11/65          | 10/66           | Scientific data processing     |
|                   | IBM 1620      | L                      | 200                  | --             | 7/65           | 2/68            | Software development           |
|                   | IBM 1401      | L                      | 137                  | 11             | 8/62           | 9/67            | IBM 7010 support               |
| MSFC - Bldg. 4485 | GE 235        | L                      | 82                   | 22             | 1/65           | 4/68            | Scientific data processing     |
|                   | GE 235        | P                      | 200                  | --             | 12/64          | --              | Scientific data processing     |
| MSFC - Bldg. 4487 | IBM 1130      | L                      | M/A <sup>b</sup>     | N/A            | 1/66           | 2/68            | Scientific data processing     |
|                   | IBM 1401      | L                      | 307                  | 10             | 5/61           | 3/68            | Business applications          |
| MSFC - Bldg. 4491 | IBM 7010      | L                      | 320                  | 94             | 9/65           | 9/67            | Business applications          |
|                   | IBM 7010      | L                      | 320                  | 94             | 1/66           | 3/68            | Business applications          |
|                   | IBM 7740      | L                      | 160                  | 17             | 7/64           | 3/68            | Business applications          |
