GEMINI BONE DENSITOMETRY STUDY CHANGE IN DENSITY OF HAND PHALANX 5-2

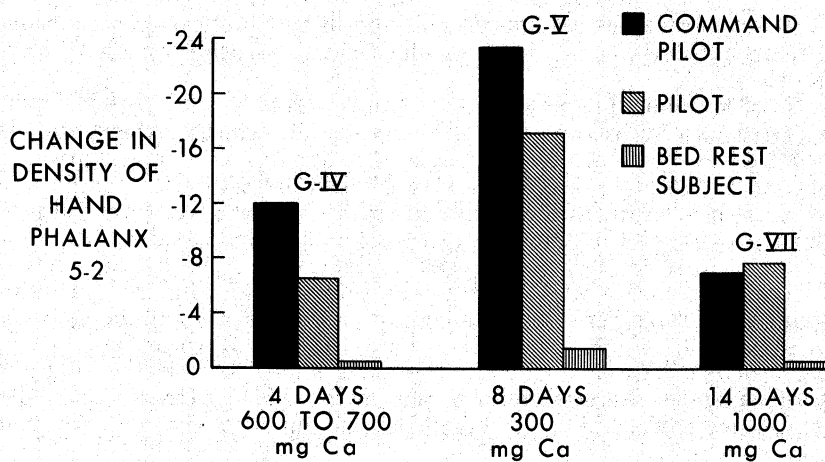

FIGURE 27

Now, this, again, is the Gemini IV (fig. 28). This was Ed White, and Ed in the condition that he was, physically, gave us some heart rates which went like this. Here was the "go" for EVA, and you can see here, this solid line indicating the heart rate and this is respiratory rate, here, the dotted line.
