

ACKNOWLEDGMENTS

General policy guidance for the study was provided by Dr. Stephen Enke, Deputy Assistant Secretary of Defense, Systems Analysis (Economics), and Dr. Herschel Kanter and Col. Vernon M. Buehler of his staff. Mr. Richard Oliver, Division of Economic Growth, Bureau of Labor Statistics; Mr. Irving Stern, Office of Business Economics, Department of Commerce; and Mr. Wallace Oliver, National Resource Evaluation Center, Office of Emergency Planning also provided valuable guidance. Numerous individuals in the Department of Defense were of assistance in our data-collection efforts.

The authors benefited from comments by a RAC review board, including Dr. G. Pettee, chairman, Mr. L. Dondero, and Mr. B. Sobin.

RAC staff members Messrs. Lucius Henderson, Paul Hinkes, and Walter Johnson and Mrs. Geraldine Sica assisted the authors in the preparation and analysis of statistical data for the study. Mrs. Sica also performed much of the preliminary editorial work required in preparing this report.
