

- 18-19 EDPE System Identification Number: A unique number sequentially assigned by each ADP Unit to each EDPE System installed or projected to be installed. This number will be included in all cards for EDPE components assigned to the system.
- 20 Partial Exemption Code: Refer to basic Circular for authorized partial exemptions. Enter one of the following codes if authorized:
1. Control Systems EDPE
 2. Classified Systems EDPE
 3. Mobile Systems EDPE
 4. Reutilization EDPE
 5. Control Systems and Reutilized EDPE
- 21-24 Component Type: The type or other number used by a manufacturer to designate types of EDPE components or PCAM.
- 25-28 Component Model: The number or letter used to indicate different models of EDPE components or PCAM.

EXAMPLES

<u>Manufacturer</u>	<u>EDPE System</u>	<u>Component Type</u>	<u>Component Model</u>
HON	2200	2201	1
IBM	36060	2060	3
UNI	1050III	0858	16
RCA	7055	55	H
GEL	415	415	
CDC	6000	626	
IBM		407	R2

- 29-31 Component Manufacturer: If the manufacturer of the EDPE component is different than the EDPE System manufacturer (columns 11-17) enter the abbreviation of the component manufacturer. See Attachment G. Otherwise leave blank.
- 32-33 Component Class Code: See Attachment H. Enter the code which generally describes the type of EDPE component or PCAM.
