

17.

While the men were not earning much more than the women, the higher number of hours per week they worked means their total income was higher (\$43.17 median/week for the men compared with \$23.17 median/week for the women).

Pre-Screening Education

The no-show group falls between the dropouts and the graduates in median years of schooling at the time of signing up for the Job Corps (8.8 years for the dropouts, 9.4 years for the no-shows and 10.3 years for the graduates):
