Graduates are more likely to have kept in touch than dropouts or discharges. Negroes have maintained more contacts than whites. A surprisingly high 82 percent of women say they have kept in touch with someone from the center. The longer someone was in the Job Corps the more likely he is to have maintained contact.

In the great majority of cases the contact has been with another Corpsman.

Readjustment Allowance

Just under one third of the August 1966 terminations said they had not received their readjustment allowance:

WHAT DID WITH READJUSTMENT ALLOWANCE *
