Mr. W. P. Kelly
Director Job
Washington, D. C. 20506

Dear Sir:

In reply to your letter of March 8, 1967, I am pleased to report that the Job Corps has benefitted our community in many ways, to-wit:

1. By purchase of some food and clothing.
2. Boys working in some of the business places for on the job training, and
3. By working on Forest Service Projects, to-wit:
 - (a) A complete water system at Carter Bridge Camp Ground.
 - (b) Tree Planting.
 - (c) Tree thinning Hillock Burn.
 - (d) Stream cleaning project five miles on Fish Creek.
 - (e) Slash burning Blue Tick Sale.
 - (f) New building at Lazy Bend Camp Ground.
 - (g) Fire fighting.

Since the Job Corps is located approximately 30 miles up the Clackamas River from our City, and having their own community center, they have not participated to any great extent in community affairs, however, our churches have opened their doors to them and welcomed them regardless of race or religion.

The Job Corps has proved to be a good neighbor and we have experienced no trouble.

Some of the personnel live in Estacada and have taken an active part in our community affairs, and we hope the Job Corps will continue in our area.

Very truly yours,

Earl H. Eckersley
Mayor
