

ECONOMIC OPPORTUNITY ACT AMENDMENTS OF 1967 3669

HUB OFFICE MACHINES, COUDERAY, WISCONSIN

APRIL 28, 1967 . . . "When I opened my business here the first of this year Mr. DeLap loaned me a couple of his helpers to get my building in shape and my office set up. I was amazed at the courtesy and the efficiency of these teen-agers and the speed at which they did splendid work. I will say that those who have been under Mr. DeLap's supervision had had wonderful training.

"From time to time I have tried to add to their training. This has been only occasionally. There have been times when the Couderay Area Development Corporation or the Couderay Area Credit Union has needed duplicating done. I have welcomed the NYC into my shop where I have showed them the proper procedure in both mimeographing and spirit duplicating. I have been surprised at the speed with which they absorbed the training and the excellent results they obtained.

"Sincerely,

"KENN MCKINNY."

FROM ARKANSAS

WASHINGTON, ARKANSAS.—"In the town that served as the Confederate capital of Arkansas during the Civil War, jobs of any kind for anyone are scarce. For Miss Audria Hatfield, an attractive 21 year old native of Washington, Arkansas, the Farmers Union NYC program last summer made it possible for her to gain working experience during the Summer, that enable here to gain a permanent job as a Secretary to the school superintendent. Miss Hatfield stated that had it not been for the opportunity provided by the NYC it is very likely she would still be unemployed.

"The income earned by Miss Hatfield is an important contribution to her family budget as her father's occupation is rather seasonal and sometimes the period between paydays is quite long. The farming and pulpwood hauling occupation followed by her father, is dependent on many factors that sometime make for very unstable family income.

"There is little doubt in Audria Hatfield's mind that the Neighborhood Youth Corps is responsible for her employment in the Washington School District today."

BROOKLAND PUBLIC SCHOOL, BROOKLAND, ARK.

MAY 16, 1967 . . . "Roger Britt is a graduating senior. He plans to go to St. Louis to work. We feel that his work here has helped prepare him for work he plans to enter.

"Sincerely,

"E. Y. TAYLOR."

HORATIO PUBLIC SCHOOLS, HORATIO, ARK.

MAY 29, 1967 . . . "Jimmy Pickett, a senior, was a fine worker, very dependable, always here for duty on time, and seemed so happy in the job. Jimmy plans to work for Dierks Forest, Inc., this summer and will enter Henderson State Teachers College, Arkadelphia, in the fall.

"Jimmy Vanmeter, a senior, has worked hard, and has made an excellent helper. The money Jimmy made has helped with school expenses. He will work this summer prior to entering Henderson State Teachers College in September.

"Dale McCoy, a hard worker and a most deserving boy. Dale is a junior this year and makes good grades—he will be a senior next fall. Dale plans to work all summer to make money to help with school expenses when the fall term begins.

"Evonda Kay Vaughn, a sophomore, has worked very well this school year. She was liked by all those whom she worked with. This money, I am sure, helped to provide the necessary school supplies that Kay needed. Kay will return to Horatio High next fall, entering her junior year.

"Lacy Edward, a senior in high school, has shown excellent progress in work habits, social development and a desire to continue to improve. He plans to enter a Vocational School this summer to take Auto Mechanics."

DEPARTMENT OF EDUCATION, MONTICELLO, ARK.

MAY 26, 1967 . . . "Joe Willie Dean, Calvin Lee Shepherd and Arceola Simpson, Jr., were excellent workers. They were always ready to work on time and they also plan to work this summer. They have also made considerable progress in their ability to handle a job. We feel like that these NYC workers felt that any job that was worth doing was worth doing well.

"Sincerely,

"CHARLES JUSTICE, Jr."
