Most of the information in this report has been obtained as a result of over 500 interviews with private citizens, officials of community action agencies, neighborhood centers and public and private agencies. We gratefully acknowledge the kind and helpful cooperation of all those contacted.

The Program Evaluation Division, Community Action Program, Office of Economic Opportunity provided the funds for this project. Mr. William C. Lawrence, Chief of this Division, and his staff were most helpful while encouraging us to exercise our own discretion and judgment. The judgments, as well as the errors of omission and commission, are solely the responsibility of Kirschner Associates.
