

For example: "LASIX" $615.7 = 615,700$ units; $48472.8 = 48,472,800$ Belgian francs.

The present rate of exchange is, approximately, 44 B.francs for one dollar.

Ionamin

I am enclosing a copy of a telex message sent to-day by us to Dr. Aldo Truant, re: the new study on "Ionamin", published in the U.S.A. on May 10, 1972.

Troponwerke, Köln-Mülheim

I recommended to your attention this major German drug producer, as a possible supplier of Phentermine, Methaqualone and other fine chemicals.

This Company was acquired, at the start of 1969, by Farbenfabriken Bayer, A.G., and is now a member of this giant German group.

Codeine Resin Complex

Further to our talks in Rochester (last March), regarding Codeine Resin Complex, Dr. William F. Head, Jr., wrote to me on April 4, 1972.

I thought that Dr. Head was attending the Symposium in London. I had, therefore, brought with me some data concerning "Netux" of Roussel (France) and "Codipront" of Mack (Germany), with the hope to have, first, the pleasure of meeting Dr. Head in London and, second, if time and circumstances permitted, to submit these data to his kind attention and have his opinion.

Unfortunately, Dr. Head did not come to London and, for this reason, I availed myself of the opportunity offered by our breakfast meeting, in order to communicate to you these data. I thank you very much for your kindness to transmit these data to Dr. Head, in Rochester.

Awaiting with great interest your good news, I remain with kindest regards,

Cordially yours,

CERTA, S.A.
JOHN S. CANAVIS.

[Telegram]

MAY 15, 1972.

PENNWALT CORP.
Pharmaceutical Division,
Rochester, N.Y.
(Attention of Dr. Aldo Truant).

Kindly airmail soonest possible copy of recent paper on "Ionamin" published May 10.

Thanks. Regards.

JOHN CANAVIS,
Certa Brussels.
