18	Washington, DC	60	2.936	20.4
19	Indianapolis	15	1.147	13.1
20	Minneapolis	20	1.846	10.8
21	Seattle	14	1.411	9.9
22	Kansas City	11	1.268	8.7
23	New Orleans	9	1.094	8.2

- a. These are the 23 metropolitan areas which have been under surveillance by the DAWN Network for at least 2 1/2 years.
- b. DPX-Related Deaths(except San Diego) are from Information Systems Section of Drug Enforcement Agency, Department of Justice. Included are all deaths where drug is a contributing factor or in which a toxic level is found (or suspected because of ingestion history).
- c. Deaths for San Diego are from San Diego coroner's office since San Diego did not become part of the DAWN System until mid-1975. (San Diego includes only 1974-1977.)
- d. Populations of metropolitan areas are from DAWN (Department of Justice) Quarterly Report (July-September 1977).
