

(The charts referred to follow:)

Estimated NIH intramural research expenditures¹ related to prednisone and prednisolone, fiscal year 1953-67

Fiscal year	NCI	NIAMD	NINDB	NIAID
1953	0	15,000	0	0
1954	0	50,000	18,000	0
1955	0	40,000	18,000	0
1956	\$10,000	30,000	10,000	0
1957	57,000	20,000	10,000	0
1958	13,000	10,000	0	0
1959	74,000	10,000	0	0
1960	19,000	0	0	0
1961	29,000	0	0	0
1962	11,000	0	0	0
1963	84,000	0	0	0
1964	231,000	0	0	0
1965	394,000	0	0	0
1966	409,000	0	0	0
1967	552,000	0	0	0
Total	1,883,000	175,000	\$56,000	0
Total, NIH				\$2,114,000

¹ Funds spent for purchase of drugs for the treatment of NIH Clinical Center patients not included.

NIH extramural research grant obligations, fiscal year 1953-67¹

Fiscal year	Total funds	Number of grants
1953	\$156,237	12
1954	327,711	12
1955	394,817	18
1956	350,554	15
1957	326,554	21
1958	655,725	37
1959	783,502	44
1960	930,866	52
1961	1,134,729	56
1962	1,229,653	68
1963	1,338,872	60
1964	1,384,401	60
1965	1,683,464	69
1966	1,695,827	61
1967	1,991,232	² 54
Total	14,384,144	639

¹ Extramural obligations overestimate funds devoted to prednisone and prednisolone since all grants in which prednisone and/or prednisolone were named were counted in the total.

² Incomplete data for fiscal year 1967.
