^{1/} Even though reported by only 19 PMA member companies with research facilities abroad, the following data is believed representative of the general dispersion of the U.S. ethical drug industry foreign research facilities and related employment. Complete coverage of the industry would not appreciably increase the employment figures reported.

^{2/} Countries are listed by region in descending order by number of employees.

^{3/} Includes facilities in Belgium (2), Switzerland (2), Netherlands (1), and an unspecified nation (1).

^{4/} Includes facilities in India (2), Japan (2), Philippines (2), Taiwan (1), and an unspecified nation (1).

^{5/} Includes facilities in Colombia (1), Peru (1), and an unspecified nation (1).
