

represented other important information with the result that an unsafe drug was allowed to go on the market.

Thank you for your attention. If you have any questions concerning MER/29, I will be happy to answer them for you.

CURRICULUM VITAE

Personal data:

Name: Edwin I. Goldenthal.

Place and Date of Birth: Plainfield, New Jersey, February 2, 1930.

Marital Status: Married in 1950; 3 children.

Education:

B.S., 1952—The George Washington University, Major: Chemistry.

M.S., 1953—The George Washington University, Major: Biochemistry.

Ph. D., 1956—The George Washington University, Major: Pharmacology.

Present Position: Acting Deputy Director, Office of New Drugs, Bureau of Medicine, Food and Drug Administration, Department of Health, Education and Welfare (July 1966 to Present).

Previous Positions:

Chief, Drug Review Branch, Division of Toxicological Evaluation, Bureau of Science, Food and Drug Administration, Department of Health, Education and Welfare (May 1963 to July 1966).

Research Pharmacologist, Division of Pharmacology, Bureau of Biological and Physical Sciences, Food and Drug Administration, Department of Health, Education and Welfare (February 1962 to May 1963).

Pharmacologist, Division of Pharmacology, Bureau of Biological and Physical Sciences, Food and Drug Administration, Department of Health, Education and Welfare (April 1956 to February 1962).

Research Fellow, Pharmacology Department, The George Washington University Medical School (February 1952 to April 1956).

Society Memberships:

Society of Sigma XI.

Society for Experimental Biology and Medicine.

European Society for the Study of Drug Toxicity.

American Society for Pharmacology and Experimental Therapeutics.

Publications:

Lamar, J. K., Jackson, C. E., and Goldenthal, E. I., Effects of Penicillin-G on the Reproductive Processes in the Mouse, Rat, and Rabbit, *Fed. Proc.*, 1968.
