Herbert L. Ley Jr., M.D.
Commissioner of Food and Drugs
Department of Health, Education and Welfare
Washington, D. C. 20204

Dear Dr. Ley:

In my opinion Mysteclin F. Capsules 250 mg. has been my antibiotic of choice for years. The drug effectively controls the infection as well as monialia overgrowth.

I prefer the drug in female and elderly patient -- the Diarrhea is an increasing problem. Mysteclin F, the combination, Tetracycline Fungizone, should be a doctors choice.

The unavailability of this drug would create an unnecessary inconvenient restriction on any prescribing freedom to the detriment of my patients.

Very truly yours,

Joan Celis M.D.
