Herbert L. Ley, M. D.
Commissioner of Food & Drugs
Dept. of Health, Education & Welfare
Washington D. C. 20205

Dear Dr. Ley:

Nysteclin-F has had a definite useful place among the antibiotics prescribed in my practice, particularly for those types of patients prone to candidal infections (women with a history of candidiasis, elderly patients debilitated patients, diabetics, patients on corticosteroids, etc.)

Yours truly,

C. G. Strovilas, M. D.
