

- Production of Petite Mutants of *Saccharomyces Cerevisiae* by Patulin. V. W. Mayer and M. S. Legator. J. of Agric. and Food Chem. (in press).
- Biological Assay for Aflatoxin. M. S. Legator. Chap. 5, pp. 107-149. In *Aflatoxin-Scientific Background, Control and Implications*. (L. Goldblatt, Ed.) Academic Press, 1969.
- The Role of Selection in the Host-Mediated Assay for Mutagenicity. M. G. Gabridge, E. J. Oswald and M. S. Legator. *Mutation Research* 7, 117-119 (1969).
- Microbial Mutagenicity of Streptozotocin in Animal-Mediated Assays. M. G. Gabridge, A. DeNunzio and M. S. Legator. *Nature* 68, 221 (1969).
- Cycasin: In Vivo Detection of Associated Mutagenic Activity. M. G. Gabridge, A. DeNunzio and M. S. Legator. *Science* 163, 689 (1969).
- A Host-Mediated Microbial Assay for the Detection of Mutagenic Compounds. M. G. Gabridge and M. S. Legator. *Proc. Soc. Exptl. Biol. & Med.* 130, 831-834 (1969).
- Mutagenic Activity of Streptozotocin. S. Kolbye and M. Legator. *Mutation Research*, 6, 387-389 (1968).
- Chemical Mutagens as a Genetic Hazard. M. S. Legator and C. B. Jacobson. *Clinical Proceedings* 24, 184-189 (1968).
- Automatic Determination of Mitotic Index. R. S. Ledley, M. Legator and J. B. Wilson. In *Pictorial Pattern Recognition*. Thompson Book Company, 1968.
- Effect of Aflatoxin on Human Leukocytes. D. Dolimpo, C. Jacobson and M. S. Legator. *Proc. Soc. Exptl. Biol. & Med.* 127, 559-562 (1968).
- Effect of Aflatoxin B₁ on Deoxyribonucleic Acid Polymerase of *Escherichia coli*. J. Wragg, V. C. Ross and M. S. Legator. *Proc. Soc. Exptl. Biol. & Med.* 125, 1052-1055 (1967).
- Biological Effects of Aflatoxin in Cell Culture. M. S. Legator. *Bact. Rev.* 30, 471-477 (1966).
- The Use of Semisynthetic Penicillins in Tissue Culture. M. S. Legator and R. J. Reedy. *Conf. on Antibiotics and Chemotherapy* (1966).
- The Woolly Opossum—A New Research Tool for Cytogenetic Studies. M. S. Legator, C. Jacobson, M. Perry and D. Dolimpo. *Life Sciences* 5, 397-402 (1966).
- Lactic Dehydrogenase Activity and Isozyme Pattern as a Function of Age in Diploid Cultures. V. A. Childs and M. S. Legator. *Proceedings of the 16th Annual Meeting of Tissue Culture Association* 77 (1966).
- Induction of Thymidine Kinase by Aflatoxin. V. A. Childs and M. S. Legator, *Life Sciences* 5, 1053-1056 (1966).
- Survival of PPLO and "L" Forms in Antibiotics. E. J. Oswald, A. R. Harp and M. S. Legator. *Bact. Proceedings* 15 (1966).
- Pipet Containing Calibrated Screen for Uniform Dispersion of Tissue Culture Cells. M. S. Legator and R. J. Reedy. *Tissue Culture Association, Abstract No. 70*, p. 64 (1965).
- Aflatoxin: Effect on Heteroploid Human Embryonic Lung Cells. M. S. Legator, S. M. Zuffante and A. R. Harp. *Nature* 208, 345-348 (1965).
- Lactic Dehydrogenase Isozymes in Diploid and Heteroploid Cells. V. A. Childs and M. S. Legator. *Life Science* 4, 1643-1650 (1965).
- Aflatoxin: Effect on Mitotic Division in Cultured Embryonic Lung Cells. M. S. Legator and A. Withrow. *J. Assoc. Off. Agr. Chemists* 47, 1007-1009 (1964).
- Mechanism of Ally Alcohol Toxicity. M. Legator and D. Racussen. *Journal of Bacteriology* 2 (1959).
- The Biosynthesis of Chloroamphenicol 1 Precursors Stimulating the Synthesis. M. Legator and D. Gottlieb. *Journal of Bacteriology* 2 (1954).

Patents, U.S. No.	Issue date	Inventor(s)	Title
2,987,475	Oct. 31, 1969	Legator	Inhibiting growth of bacteria in water flooding process.
3,006,807	do	do	Slimicide.
3,044,884	July 17, 1962	Rader, Legator	Preservation of foods.
3,052,598	Sept. 4, 1962	Racusen, Legator	Soil fumigant.
3,080,274	Mar. 5, 1963	Legator, Kreutzer, Soloway.	Soil fungicide.
3,126,318	Mar. 24, 1964	Legator	Synergistic antibiotic compositions and preparation thereof.
3,148,988	Sept. 15, 1964	do	Growth promotant substances.
3,169,989	Feb. 16, 1965	Tieman, Legator	Trihalo-substituted Aldoxime Esters.
3,215,708	Nov. 2, 1965	Fan, Rader, Legator, Dowding.	Polyhydronaphthalene Diepoxides.
3,234,087	Feb. 8, 1966	Haynes, Legator	Coccidiosis control compositions and methods of using same.
3,240,605	Mar. 15, 1966	Legator	Growth promotant substances.
3,250,667	May 10, 1966	do	Control of microorganisms with Acrolein.
