- Ralph M. Wynn, M.D., Professor and Head, Obstetrics and Gynecology, University of Illinois Medical Center, Chicago, Ill.

PREFACE

The Committee on Obstetrics and Gynecology expresses its appreciation to the Commissioner of the Food and Drug Administration and his staff for cooperation in the arrangements for its meetings, the preparation of reference material, and in particular, for their readily available consultation. The Committee also thanks the representatives of the pharmaceutical industry for their assistance and prompt submission of requested reports.

The preparation of this report has required consultation with numerous scientists whose help is gratefully acknowledged. Their continuing cooperation ensures that this report and others to follow will attain a crucial goal—a fully aware and accurately informed medical profession and public.

The Committee thanks Dr. Ralph M. Wynn, Professor and Head, Department of Obstetrics and Gynecology, University of Illinois at the Medical Center, Chicago, Illinois, Dr. John J. Schrogie, Bureau of Medicine, Food and Drug Administration, Ina Friedelson, Press Relations Staff, Food and Drug Administration and Florence Gubitza, State University of New York, Downstate Medical Center for assistance in preparation of this manuscript.

The Committee reports with deep regret the untimely death of Dr. Roger B. Scott, which deprived it of his sage counsel.

* Deceased.
