FOOTNOTES

¹In this table, manufacturer is defined as that company who mixed the final ingredients and tableted or encapsulated the finished dosage form of a pharmaceutical product.

²Discontinued distribution, January, 1973.

³An NDA is held by the distributor, who also specifies the manufacturing procedures and observes the plant monthly.

⁴Second manufacturer listed in a back-up supplier.

⁵Plans to discontinue distribution when present stocks are exhausted.

⁶Distributor states they completely manufacture the product.

⁷Release is subject to the distributors quality control.

⁸Distributed by Data Products Co., Division of Eli Lilly & Company in some areas.

⁹400 mg Tablets only.

¹⁰Manufactured by The Dow Chemical Company, Dow Pharmaceuticals or its wholly-owned Virgin Islands Company.

¹¹Barr Laboratories is awaiting FDA approval.

¹²Includes both tetracycline HCl and phosphate complex.

¹³Clarification of response requested by CPhA.

¹⁴As of September 27, 1973.
