ORDERING INSTRUCTIONS - Continued

65, I - c

11. **JUSTIFICATION.** When orders are placed at other than the lowest price available under a item and (1) the cost is more than \$250 per line item, ordering activities must justify the purchase of the higher priced item; (2) the cost is \$250 or less per line item, ordering activities should refer to their agency procurement regulations to determine if justification is required.

12. **PLACING OF ORDERS.** If an order is placed with any of the authorized agents, the order shall be addressed to the agent but in such manner as to show the name of the contractor as principal and the addressee as agent for the contractor.
