

12216 COMPETITIVE PROBLEMS IN THE DRUG INDUSTRY

- ° Definition of the single management system is deleted from the charter. The development of the definition to be treated as a task for the Committee.

- ° The charter requires the system to be responsive to OMB recommendations.

- ° The Committee will consider determining the logistic responsibilities of wholesale system managers on the development of the single system.

- ° The Committee will report to the Administrator of GSA in accordance with its scheduled objectives rather than at calendar intervals.

- ° The Committee will be called the Medical and Non-perishable Subsistence Supply Management Committee.

The revised draft reflects the purposes of the original proposed charter which had been prepared by OFMP and enhances the flexibility of the Committee in determining approaches to implementation and assigning problems to Task Groups.

4. Recommendation Number 2. The Committee agreed with Mr. Sorett's suggestion that the implementation of OMB's Recommendation 2 requires the same approach as the implementation of Recommendation 3(a), and that Recommendation 3(a) should receive priority attention. Accordingly, the Committee turned to discussion of Item 5.
