

COMPETITIVE PROBLEMS IN THE DRUG INDUSTRY 12197

3. Item Management.

- a. How will centrally stocked items be managed; and by whom?
- b. How will non-stock items, that have been designated to be managed, actually be managed; and by whom?
- c. How will procurement technique for managing non-stock items be established; and by whom?
- d. What groups of items will be managed on an exception basis?
- e. How will overseas support be accomplished?

4. Definitions

Because definitions of logistical terms vary from agency to agency, it is requested that they be used in order to eliminate ambiguity.

Finally, it is our understanding that you should be able to complete the requested report within 60 to 90 days from this date. Our next Committee meeting will be held on March 18, 1975, by which time we should like a progress report.

Louis Sorett
Chairman
Interagency Med/NPS
Supply Management Committee

cc: Med/NPS Committee
Mr. James Currie
