

COMPETITIVE PROBLEMS IN THE DRUG INDUSTRY 12167

Quality Control, Inspection, and Receipt of Material.

1. What quality control methods are used for materials purchased locally?
If technical inspections are made, indicate types of items involved and general nature of inspection.

2. For materials purchased locally, where (city) and by what organization are vendor's vouchers certified for payment?

3. How are inventories financed (stock fund, appropriations, etc.)?
