

12166 COMPETITIVE PROBLEMS IN THE DRUG INDUSTRY

3. Provide the government storage points and percentage of support from each from which your drugs, medical supplies, equipment and nonperishable subsistence items are received.

4. Under what criteria are you required to submit reports to an inventory control point or higher headquarters containing detail or summary data on items purchased locally? If so, to whom, what elements of data are required and what is the frequency of reporting?

5. Provide listings of line items or copies of Purchase Documents of locally purchased items which would constitute the total dollar volume of purchases indicated in 2B and 2C above during CY 1971 for (1) drugs, (2) other medical materials and (3) nonperishable subsistence, in accordance with FSC classes shown on attached list. If manual or ADP machine listings are provided, portray data in FSC sequence with those items having FSN's listed first in each FSC:

a. Complete item description to include FSN, purchase description, manufacturer's name and part number, and specification reference.

b. CY 1971 dollar volume.

c. Total units purchased in CY 1971 (describe unit, e.g., can size, bottle size, or number of units per case, etc.).

d. Number of times purchased in CY 1971.

e. Average cost per unit.

6. What are the authorizing criteria for exceptions from requesting support from prescribed central or mandatory sources of supply, e.g., emergency requirements, dollar limitation, geographical limitation, item types, etc. Specify the authorizing documentation for each criterion.
