

COMPETITIVE PROBLEMS IN THE DRUG INDUSTRY 12263

MINUTES OF THE MEDICAL AND NONPERISHABLE
SUBSISTENCE SUPPLY MANAGEMENT COMMITTEE
WEDNESDAY, DECEMBER 18, 1974

The meeting of the Ad Hoc Interagency Medical and Non-perishable Subsistence (Med/NPS) Supply Management Committee was held at the Defense Personnel Support Center (DPSC), Philadelphia, Pennsylvania on the above date, with Rear Admiral C. B. Smith, S.C.U.S.N., acting as a gracious host to the Committee. Those persons in attendance are listed in Attachment A.

1. Previous minutes. Because of the unusual character of the meeting in which the entire morning was devoted to the discussion of DPSC's operation, the minutes of the October 29th meeting were not acted on. (NOTE: If there are any additions or corrections, please send them to the Committee Chairman.)

2. DPSC Presentation. After a welcome by Rear Admiral Smith, there was a detailed briefing which included the discussion by the Committee members of the medical operations of DPSC. The discussion enabled the Committee to obtain a more realistic view of the possibilities and problems involved in establishing the desired single system for management. The Committee was unanimous in expressing their appreciation for DPSC's excellent presentation.
