

TABLE VI.—*International Biological Program (IBP)—Phase I: 1965-67, design and feasibility studies; phase II: Mid-1967-72 (approximate), operational program*

Purpose	International organization		U.S. participation		
	Sponsorship and participating bodies	Approximate annual budget	NAS-NRC	U.S. Government	Budget
Worldwide study of the biological basis of productivity and human welfare: (g) Organic production on land, sea and fresh water, and potential uses of new and existing natural resources; (h) human adaptability to changing conditions.	Special Committee for the International Biological Program of ICSU. Member Unions are IUBS, IUP, IUPS, IQU, IUNS, and IUGN. There are 7 Sectional Committees: Productivity of Terrestrial Communities; Production of Terrestrial Communities; Conservation of Terrestrial Communities; Productivity of Fresh-Water Communities; Productivity of Marine Communities; Human Adaptability; and Use and Management of Biological Resources. IBP Central Office, 7 Marylebone Rd., London, N.W. 1. Scientific Director, E. B. Worthington; Executive Secretary, H. A. W. Southton.	The 1966 budget of SCIBP was estimated at \$178,000 on Sept. 1, 1966.	The U.S. National Committee for IBP, of which the Chairman is Dr. Roger Revelle, Director, Center for Population Studies, Harvard University School of Public Health.	The Interagency Coordinating Committee for the IBP, of which the Chairman is Dr. Harve J. Carlson, Director of the Division of Biological and Medical Sciences, NSF. Participating agencies: AEC, Agriculture (Cooperative State Research Service, Forest Service, Agricultural Research Service), Commerce (NBS), Defense (ONR, AF Office of Scientific Research, Army Research Office), HEW (NIH, PHS/Environmental Health, Office of Education), Interior, State (SCI, AID), NASA, the Smithsonian.	The IBP budget for fiscal year 1967 is \$233,000, of which \$10,000 are U.S. dues to SCIBP, and \$30,000 is special contribution to SCIBP, being matched by other participating countries.

NOTE.—For further information, contact Dr. Michael R. DeCarlo, Assistant Executive Secretary or Mr. Richard H. Oliver, Division of Biology and Agriculture, NRC.
