Treasury.....	86.2	80.9	-5.3
Veterans' Administration.....	150.9	149.3	-1.6

² Subject to later distribution.³ Individual items do not add to exact total because of rounding.

Chairman PROXMIRE. Congressman Reuss?

Representative REUSS. I was particularly interested in your table 2 "Trends and profit margins compared with unemployment rates," and would ask that you refer to it. (See p. 798.) It's interesting to note that in 1961, the unemployment rate was 6.7 percent, and as your chart shows, it has gone steadily downward so that in 1966 it was 3.9 percent, and conversely the after tax profits of manufacturing corporations as a percentage of sales back in 1961 was 4.3 percent, and it has gone steadily upward, year after year, until in 1966 it was at 5.6 percent.
