

FEDERAL OIL SHALE PROGRAM

covering conclusions and recommendations derived therefrom. The report shall include a complete and detailed disclosure of all materials, processes, and equipment involved, including all the technical and financial data needed to enable any qualified person to carry out the work performed under the lease. Where appropriate, the recommendations shall include proposals for further improvements which would advance the future state of the art based on knowledge acquired in the performance of the work under the lease.

[3] To make such other reports and supply such information regarding the progress of the research as the Secretary may specify from time to time.

[4] To permit access, by persons designated by the Secretary, to the leased premises, all facilities thereon, all other facilities in which any part of the research is conducted, and all books and records which directly relate to the plan of research being conducted.

(2) The lease will provide that no report required under the lease may be copyrighted and the lessee, without additional compensation, therein grants to the Secretary the full right to publish, reproduce and use, and to have others to do so, for any purpose without limitations, the reports and any information obtained by the Secretary hereunder. The Secretary will promptly publish the reports received and make the other information he has obtained available to the public.

(3) The lease will require that the lessee agree not to publish, or to make available to others besides representatives of the Secretary, the results of the research work under the lease or any information concerning the same, without prior approval in writing from the Secretary.

(e) Patents. The lease will contain provisions that the United States will acquire title to all inventions made in the course of or under the research term of the lease, and requiring the lessee to issue licenses at reasonable royalty rates, with respect to such patents as he may own, which are necessary to permit others to practice inventions made in the course of or under the research term of the lease, except that the lease may contain provisions granting greater patent rights to the lessee, in such cases where a proper showing of exceptional circumstances is made, in accordance with the Statement of Government Patent Policy issued by President Kennedy on October 10, 1963, 28 F.R. 10943.

(f) Assignments and Relinquishments. The lease will contain provisions governing assignments and relinquishments.

(g) Cancellation of Leases. Upon failure of a lessee to comply with the provisions of the Mineral Leasing Act, or of the regulations issued thereunder, or of the lease, and continuation of such default for 30 days after service of written notice thereof by the Secretary, the Secretary may institute judicial proceedings for the cancellation of the lease as provided in section 31 of the Act. Failure to give notice with respect to any particular cause of forfeiture shall not be deemed a waiver and shall not prevent the cancellation and forfeiture of the lease for any other cause of forfeiture, or for the same cause occurring at another time.

(h) Additional Provisions. The lease will contain such additional provisions as the Secretary deems appropriate.

§ 3172.10 *Antitrust Consultation.*

Prior to the issuance of a lease, the Secretary will forward a copy to the Attorney General, requesting his advice as to whether the issuance of the lease would be consistent with the objectives of the Federal antitrust laws.

STEWART L. UDALL,
Secretary of the Interior.

U.S. DEPARTMENT OF THE INTERIOR, BUREAU OF LAND MANAGEMENT, WASHINGTON

[43 CFR, Subpart 2244]

EXCHANGES

Basis and Purpose. Notice is hereby given that the Department of the Interior proposes to amend the regulations regarding exchanges of privately owned lands under the Taylor Grazing Act, found at Subpart 2244 of Title 43 of the Code of Federal Regulations, by adding the proposed regulations set forth below.
