

V-2

CAVEAT: Most of the material offered by the Russell Sage Foundation in their philanthropic library does not apply to present-day methods, nor to the type of foundations you will create. If, however, you wish to do scholarly research in the field, the R.S.F. material is of the highest caliber.

A more complete list of Government Publications available from the U. S. Government Printing Office is available on request. In addition, selected reading lists concerning any special topic will be compiled upon a request relating the nature of the problem encountered by associate counsel.

Excellent Basic Review material may be found in Prentice-Hall, American Jurisprudence Second, and the Treasury Pamphlet on How to Apply for Exemption. We must remind you, however, that this material is basic and sometimes misleading. The scope of permissible foundation activity and "law" far exceeds the scope of this review material.
