

of the Treasury Department report suggesting removal of the restriction against export of unfinished logs from Alaska forests.

Fortunately, the Secretary of Agriculture and the Forest Service agree with the Alaskans. I would like to request that the record include the text of a letter addressed to me by the Secretary of Agriculture advising that the Department has no intention of changing its policy in this matter, together with the text of a telegram from the Forest Service to Mr. Don Bell, secretary, Alaska Loggers Association, reaffirming this.

Senator MORSE. The letter and the telegram identified by the Senator from Alaska will be inserted in the record at this point.

(The documents referred to follow :)
