Source: U.S. Department of Commerce. The valuation definition used in the export statistics is the value at the seaport or border point of exportation. It is based on the selling price (or cost if not sold) and includes inland freight, insurance, and other charges to the port of exportation. Oregon Customs District includes all Oregon points and Longview and Vancouver, Wash. Washington Customs District includes all coastal and inland points in the State of Washington, except Longview and Vancouver, Wash. Data for the most recent calendar quarters are preliminary and subject to revision.
