

In fact, your own comments on page 936 of the transcript capture much of the flavor of what we were saying in our prepared testimony:

"... to try to segmentize this matter and just limit it to the matter of the log issue, I think, doesn't face the economic realities that confront us, because we have got a problem here of building up this lumber economy in the Pacific Northwest, if we are going to protect the prosperity of our people."

Trusting that this will clarify the record by dispelling any qualifications as to the completeness or the intent of our prepared testimony, I am

Sincerely,

Ronald F. Roley
International President
