I have suggested, I certainly would not be opposed. By the same token, I recognize that any limitation program must be accompanied by continued efforts to improve our timber management, increase the allowable cut and accelerate development of access roads.

Your respective departments are to be commended for the work they have done in these areas, yet, we all recognize the potential for even greater improvement, as well as the need to aid our lumber manufacturers.

I strongly urge that each of you adopt my "Domestic First Sale" proposal for the sale of timber managed by your departments.

Sincerely,
