

ESTIMATED RETAIL FOOD PRICES BY CITIES

May 1967

: Prices published in this report are estimated from special benchmark averages computed :  
: in January 1966 and adjusted for price changes to the current month as shown by data :  
: collected for the Consumer Price Index. Benchmark prices for 1967 will not be com- :  
: puted until the completion of a revision of the store sample schedules for later this :  
: year. Quotations from each source are on a comparable basis from one period to the :  
: next as to brand, quality, and size, but quotations from different sources and differ- :  
: ent urban areas may reflect some variation in these factors. Therefore, differences :  
: in prices between areas may not represent true price differentials.
