¹ We also visited 4 contractor locations where we did not collect comparable financial data for Government-owned property in their possession. At these locations we restricted our examination to the DOD industrial equipment modernization and replacement program.

² Principally metalworking machine tools.

³ Presses and support equipment under the Air Force heavy press program.

⁴ Military property consists of military personal property, such as trucks, radar equipment, and aircraft.

⁵ Includes 1 heavy press operator who is also an ordnance manufacturer.

⁶ Not readily determinable.

⁷ Primarily test vans and test chambers.

⁸ Primarily scientific equipment and furniture and fixtures.

⁹ Includes tooling at subcontractor locations.

¹⁰ Includes synchrotron costing \$2.4 million. Remaining items at universities refer primarily to electronic test equipment, both general purpose and specialized.
