

Testimony of—Continued

Skeels, Paul, chairman, Committee on Guardrail, Highway Research Board.....	Page 493
Wilkes, W. Jack, Chief of Bridge Division, Office of Engineering and Operations, U.S. Bureau of Public Roads.....	493
Wilson, James E., traffic engineer, California Division of Highways; chairman, National Joint Committee on Uniform Traffic Control Devices.....	493

LIST OF EXHIBITS

No.		
1.	Four pictures—Interstate 5 between Portland and Salem, Oreg.....	221
2.	Reprint from Highway Research Record 152 (1967)—Non-Intersectional Automobile Fatalities—A Problem in Roadside Design—Donald F. Huelke.....	221
3.	List of nine interstate projects.....	492
4.	Highway Research Board Special Report 81—publication 1165—Highway Guardrail—1964.....	502
5.	Instructional Memorandum 21-11-67—May 19, 1967, U.S. Department of Transportation, Federal Highway Administration—Subject: Safety Provisions for Roadside Features and Appurtenances.....	696
6.	Chart—Showing four-span side piers; two-span closed abutments; two-span abutments on slope; two-span rigid frame.....	930
7.	Large panel showing hazardous gore.....	986
8.	Summary statement of Charles W. Prisk, June 23, 1967, re slides shown in hearing.....	995
9.	Paper, for delivery at AASHO region 3 meeting, June 5, 1967, Highway Safety as Related to Design Involving Fixed Objects, T. S. Huff.....	1020
10.	Paper, Roadside Design for Safety, January 11 to 15, 1960, revised March 1, 1960, K. A. Stonex.....	1020
11.	Graph, Hazard Curve 211—GM Proving Ground Accidents (with slide).....	1020
12.	Graph, Comparison of Proving Ground, 211 cases, Hutchinson, Cornell, and Route 66 "Hazard" Curves (with slides).....	1020
13.	Script for film, "Safer Roadsides," GM public relations.....	1023
14.	Script for film, "Guardrail Crash Tests—For Safety," GM public relations.....	1030
15.	Report on Highway Safety Research—Texas Transportation Institute.....	1040
16.	Selected List of Reported Research Subjects and Research in Progress Directly Relating to Highway Safety—Texas Transportation Institute.....	1079
17.	Physical Research Report 67-1—New Highway Barriers—The Practical Application of Theoretical Design—New York Department of Public Works—May, 1967.....	1135
18.	Graph—Motor Vehicle Deaths Compared to Total Vehicle Miles Traveled—1937 through 1966.....	1166
18A.	Graph—Total Motor Vehicle Deaths Compared with Deaths on Federal-Aid Primary System—Total Roads, Streets and Highways in United States—3.7 Million Miles.....	1166
18B.	Motor Vehicle Deaths—1212—1966. Statistical Report.....	1166
18C.	Statewide Fatal Injury Accidents—1966. All Systems and Interstate. Statistical Report.....	1166
18D.	Statewide Fatal Injury Accidents—1966. Statistical Report—All Systems—Federal-Aid Primary System (Including Interstate).....	1166
19A.	Booklet—Report by the Special Freeway Study and Analysis Committee to the Executive Committee of the AASHO—February, 1960.....	1220
19B.	Booklet—Freeway Operations—1961. (This booklet prepared as an outgrowth of the 12 regional seminars on freeway operations conducted by the Institute of Traffic Engineers).....	1222
19C.	Booklet—Traffic Control and Roadway Elements—Their Relationship to Highway Safety. 1963. Automotive Safety Foundation in cooperation with the U.S. Bureau of Public Roads.....	1222
19D.	A report of the Special AASHO Traffic Safety Committee—February, 1967. Highway Design and Operational Practices Related to Highway Safety, known as "The Yellow Book".....	1222
