

Department of Housing and Urban Development perform an important role in connection with transportation research and planning insofar as they have significant impact on urban development.

We expect the Department of Transportation to provide leadership in transportation policy and assistance. The Department of Housing and Urban Development will provide leadership in comprehensive planning at the local level that includes transportation planning and relates it to broader urban development objectives.

The transfer of urban mass transportation programs will not diminish the overall responsibilities of the Department of Housing and Urban Development with respect to our cities. Rather, adequate authority is reserved to that Department to enable it to join with the Department of Transportation to assure that urban transportation develops as an integral component of the broader development of growing urban areas.

The new Urban Mass Transportation Administration in the Department of Transportation, working with other elements of the Department, will consolidate and focus our efforts to develop and employ the most modern transportation technology in the solution of the transportation problems of our cities.

The reorganization plan provides for an Administrator at the head of the Administration who would be appointed by the President, by and with the advice and consent of the Senate. The Administrator would report directly to the Secretary of Transportation and take his place in the Department with the heads of the Federal Aviation Administration, Federal Highway Administration, Federal Railroad Administration and the Coast Guard.

I have found, after investigation, that each reorganization included in the reorganization plan transmitted herewith is necessary to accomplish one or more of the purposes set forth in section 901(a) of title 5 of the United States Code.

I have also found that it is necessary to include in the accompanying plan, by reason of these reorganizations, provisions for the appointment and compensation of the new officer specified in section 3(b) of the plan. The rate of compensation fixed for this officer is comparable to those fixed for officers in the Executive Branch of the Government having similar responsibilities.

The reorganizations included in this plan will provide more effective management of transportation programs. It is not feasible to itemize the reduction in expenditures which the plan will achieve, but I have no doubt that this reorganization will preserve and strengthen overall comprehensive planning for developing urban areas while simultaneously insuring more efficient transportation systems for our cities than would otherwise have occurred.

I strongly urge that the Congress allow the reorganization plan to become effective.

LYNDON B. JOHNSON.

THE WHITE HOUSE, *February 26, 1968.*

REORGANIZATION PLAN No. 2 OF 1968
