¹ Thousands of gross square feet.² Based on overall average planning factor of 150 gross square feet of academic facilities per FTE (full-time equivalent) student.³ Gap per student in gross square feet.⁴ Original projection means before fiscal years 1968 and 1969 reductions. Original levels were \$650,000,000 for both yearsTABLE III.—COMPARISON OF ESTIMATED ENROLLMENT INCREASES WITH ESTIMATED NUMBER OF ADDITIONAL STUDENT PLACES PROVIDED BY ADDITIONS IN ACADEMIC FACILITIES¹

Academic year	Full-time equivalent student enrollment increase	Opening deficiency in number of student places ²	Number of student places provided by added facilities ²	
			Total	HEFA assisted
1964-65.....	419	599	214	19
1965-66.....	555	940	275	54

Before cut.....		163	(⁴)	(⁴)

¹ All figures represent thousands of students, rounded to nearest 1,000.² Based on overall average planning factor of 150 gross square feet per full-time equivalent student.³ Before cut means as previously projected based on original target levels of \$650,000,000 HEFA funds in fiscal year 1968 and fiscal year 1969.⁴ Not estimated.
