basis for referral was that only a few of the institutions represented had Nursing and Medical School programs and the others were not aware of the fact that problems existed.

(7) *Guaranteed Loan Programs*

This resolution passed by a substantial majority in the F.A.S.F.A.A. meeting, but was referred to Committee for further study by S.A.S.F.A.A. The primary reason being that there are just not enough informed people on the provisions of the program.

Over all, I believe the degree of success of the resolutions, was due to a growing awareness on the part of Financial Aid Officers, of the provisions and problems of the programs.

If I may be of further service, please do not hesitate to so advise. I appreciate your invitation to appear before your committe, but travel funds are not available. I sincerely believe, however, that experienced financial aid administrators' opinions and judgments would be more beneficial to your committee, than organizational representatives who are not dealing with the problems nor the programs on a daily basis.

Sincerely yours,

THOS W. SUTTON,
Director of Financial Aid.

PROPOSED RESOLUTIONS AFFECTING FEDERAL PROGRAMS OF STUDENT FINANCIAL AID

NATIONAL DEFENSE EDUCATION ACT OF 1958

I. *Section 205(b3)—Teacher cancellation provisions*

Whereas the Florida Association of Student Financial Aid Administrators (FASFAA) recognizes that one of the purposes of Title II of the NDEA was to attract superior students to the teaching profession by providing loan cancellation provisions; and

Whereas it has been determined from analysis that the teacher cancellation provisions *have not* resulted in an appreciable increase over and above the normal number of students entering the teaching field; and

Whereas section 205(b3), as amended, has resulted in an ever broadening scope of teacher cancellation provisions and an increasing number of student borrowers who are receiving either partial or total cancellation of their obligation; and

Whereas it is the opinion of the FASFAA Committee on Student Financial Aid Programs that this section of the National Defense Education Act is discriminatory and tends to destroy the effectiveness of an otherwise basic loan program which is the greatest source of student financial aid available to students; and

Whereas there are at present other proposals being considered to provide cancellation privileges to Veterans and others, so that eventually the true intent of a long-term, low interest loan program will be destroyed at the expense of the American Taxpayer: Therefore be it

Resolved, That Section 205(b3) of the National Defense Education Act be deleted, thereby; (a) eliminating the discriminatory provisions of the act; (b) eliminating the paper work and ever increasing problems of collections associated with cancellation privileges; and (c) otherwise restoring the program to a true loan program for students.

(Passed by FASFAA & SASFAA)

III. *Section 205(a)—Terms of loan*

Whereas section 205(a) provides that "the total of the loans for any academic year or its equivalent, as determined under regulations of the Commissioner, made by institutions of higher education from loan funds established pursuant to agreements under this title may not exceed $2,500 in the case of any graduate or professional student (as defined in regulations of the Commissioner), and may not exceed $1,000 in the case of any other student. The aggregate of the loans for all years from such funds may not exceed $10,000 in the case of any graduate or professional student (as so defined, and including any loans from
