¹ Quantity values given in sq. meters were converted into metric tons on the basis of a ratio derived from Canadian and U.S. values on the assumption that the value of imports to these two countries would be comparable (ratio: .0092 T/sq. m.).

² Quantity values given in sq. meters were converted to metric tons on the basis of a ratio for 3/16" average estimated at 24.219 lbs./sq. meter.
