

Appendix B

AGREEMENT ON IMPLEMENTATION OF ARTICLE VI OF
THE GENERAL AGREEMENT ON TARIFFS AND TRADE

The parties to this Agreement,

Considering that Ministers on 21 May 1963 agreed that a significant liberalization of world trade was desirable and that the comprehensive trade negotiations, the 1964 Trade Negotiations, should deal not only with tariffs but also with non-tariff barriers;

Recognizing that anti-dumping practices should not constitute an unjustifiable impediment to international trade and that anti-dumping duties may be applied against dumping only if such dumping causes or threatens material injury to an established industry or materially retards the establishment of an industry;

Considering that it is desirable to provide for equitable and open procedures as the basis for a full examination of dumping cases; and

Desiring to interpret the provisions of Article VI of the General Agreement and to elaborate rules for their application in order to provide greater uniformity and certainty in their implementation;

Hereby agree as follows:

PART I - ANTI-DUMPING CODE

Article 1

The imposition of an anti-dumping duty is a measure to be taken only under the circumstances provided for in Article VI of the General Agreement. The following provisions govern the application of this Article, in so far as action is taken under anti-dumping legislation or regulations.

A. DETERMINATION OF DUMPING

Article 2

(a) For the purpose of this Code a product is to be considered as being dumped, i.e. introduced into the commerce of another country at less than its normal value, if the export price of the product exported from one country to another is less than the comparable price, in the ordinary course of trade, for the like product when destined for consumption in the exporting country.

(b) Throughout this Code the term "like product" ("produit similaire") shall be interpreted to mean a product which is identical, i.e. alike in all respects to the product under consideration, or in the absence of such a product, another product which, although not alike in all respects, has characteristics closely resembling those of the product under consideration.
